

Solar charger

Battery	Type	Polymer Lithium-Ion
	Capacity	2500 mAh
	Input Voltage	5 Vdc (Connect via USB/micro-USB cable to an external USB power supply)
	Output	5 Vdc (Provided with USB/Jack 2.1 mm cable for microscope connection)
	Charging time	About 2.5 hours
	Battery operating time	Over 6 hours at medium intensity (X-LED ³)
	Solar Panel Output	80 mA (at 1000 W/m ² light)
	Working Temperature	-10°C ~ +55°C

Accessories Included	Power supply	Yes
	USB/MicroUSB cable	Yes
	USB/Jack 2.1 mm cable	Yes
	User Manual	Digital version (downloadable)
